

Highlight: Unique bowls of light – delicate, classy, handcrafted!

(thk) Inimitably. Illuminating. Exclusive. These are the luxurious lightbowls by Gunda Loch. Due to their distinctive and irregularly jagged frame, they are reminiscent of ostrich egg-halves and they are made out of clay. The novelty of these exclusive pieces is their sheer and extremely delicate design, with a material thickness of only one to two millimeters! The artist, who resides in the Stuttgart area, has perfected this sophisticated production technique since 1976. “My intentions were”, she tells, “to manipulate and process the material clay, as you wouldn’t expect – sheer, translucent, comparable to delicate china.”

Two basic variations of the light-bobeches are offered: Metallic-black (edition “Night”, matte) or craquelée-white (edition “Day”, glossy); the inside is either golden or silver. The manufacturing and creation process consists of several steps and is very time-consuming. After the blank objects come out of the oven, they are glazed with the respective color on the outside. After they are again fired and burnt at 1100 degree Celsius, they are gold-plated (Type “Aurum”) or silver-plated (Type: “Argentum”) on the inside with impact metal and coated with clear lacquer several times.

In metallic-black/gold and craquelée-white/silver, both variations of the bobeches come to life when a tea light is placed in their center. This wellness-object exudes a discreet shimmer which translates into a mood-

lightening, elegant and calming atmosphere. Placed in a key position, this premium vessel proves to be a highlight in any room, providing a visual accent and creating a particularly charming ambience. Obviously, an eye-catcher like this guarantees sophisticated and precious “enlightenment”.

Because every single bowl of light is handmade, each is a unique object. The nuances of these are always different and therefore do not resemble anonymous mass-products in color or style!

The delicate, but firm unique objects are available with different diameters: 12 to 13 centimeters (M) and 18 to 19 centimeters (L). The price, including tea light, depending on size and work, is 94 Euro (“Night”, M), 99 Euro (“Day”, M), 129 Euro (“Night”, L) and 134 Euro (“Day”, L). These prices are subject to expenditure-dependent packaging and insured shipping costs (e.g. a minimum of 9,90 Euro will be charged for inner-German shippings. Shipping costs for other countries can be assessed on request). The miniature-bobeches in size S (diameters: 8-9 cm) are available as a bonus exclusively when buying the respective Set (282 Euro/metallic-black or 297 Euro/craquelée-white). Sporadically, we offer different, limited editions. Information and supply: Phone: +49 (0)7031.8196883, www.lights-deluxe.com.
